COUNCIL SETS TAX RATE AT FORTY-FOUR MILLS--1938

Following is a record of the proceedings of the council of the Town of Wainwright at its regular meeting on Tuesday, May 17th.

The members of council present at this meeting were Mayor Middlemass and Councillors Link, Lismore, Welch, Billing, Robinson and Cork.

The recorded proceedings of council at its regular meeting of April 3rd were read and on motion by Councillor Cork, were adopted and confirmed as written.

A communication was received from the Bureau of Relief and Public Welfare, relative to the application of Mrs. Ila McCallum for relief, and on motion by Councillor Link, the Town Constable was instructed to call on Mr. McCallum and obtain an application, properly drawn up and signed by him, giving complete information.

An application, signed by Mr. C. P. Quigley, was presented to council in which he requested permission to erect a tent upon Lots 17 and 18 in Block 16, Plan 6445V, known as the old risk site, for the conducting of Gospel Meetings, the tent to be maintained for about one month, and on motion by Councillor Billing, the application was left in the hands of the property committee with power to lease any lots suitable to the applicant on payment of a fee of \$1.00.

The following applications were received for the use of forfeited vacant lots for gardening purposes in the year 1938, viz: Mr. E. W. Bonner for Lots 9 and 10 in Block 18, Plan 6445V and Mr. J. B. Stinson for Lot 19 in Block 40, Plan 1952, and on motion by Councillor Welch both applications were approved on the usual terms.

The report of the Provincial Inspector on his recent inspection of the town and of dairy premises was received from the provincial department of health and on motion by Councillor Link, the Secretary was instructed to mail a copy of the report to the Medical Health Officer with instructions to act.

Mr. Harvey Bawans made written offer for \$100 cash for the building on Lots 19 and 20 in Block 30, Plan 6445V, and on motion by Councillor Welch, the offer was accepted subject to the passing of the necessary bylaw and the approval of the Minister.

The annual requisition, from the Wainwright School District No. 1628, requested the raising of \$12,000 for current year's expenses and an additional sum of \$3,000 for the construction of a new building, was placed before council and, on motion by Councillor Cork, council accepted the requisition for \$12,000 for current expenses and an additional amount of \$3,000 for erection of a new building for the present year.

The Wainwright Roman Catholic Separate School District No. 31 presented a requisition in the form of a request that the same rate be levied for Separate School purposes as that levied for Public School purposes, undertaking to accept the sum so raised in full settlement of their requisition for the current year, and on motion by Councillor Cork, their requisition was received and accepted and referred to the Finance Committee for the preparation of estimates.

The Finance Committee then submitted to council the estimated expenditure for the year 1938 and, on motion by Councillor Cork, the estimates were received and accepted and carried.

Moved by Coun. Blackley—That the report of Dr. Greenberg, M.H.O., re J. G. McKie be accepted.—Carried.

Moved by Coun. Smallwood—That relief be extended to J. G. McKie for \$10.00 until June 8th.—Carried.

Moved by Coun. Smallwood—That J. G. McKie come to town on Tuesday May 17th and that the secretary be instructed to make arrangements with Dr. Springbett for the extraction of Mr. McKie's teeth on account of illness.—Carried.

Moved by Coun. Stewart—That the report of Dr. Greenberg, M.H.O., re J. G. McKie be accepted.—Carried.

Moved by Coun. Blackley—That the report of Messrs. Smallwood, Dalton and the Secretary re Abernethy children be accepted.—Carried.

Moved by Coun. Blackley—That relief be extended to J. Baska for \$3.00 until June 8th.—Carried.

Moved by Coun. Smallwood—That the Secretary reply to letter from G. B. Golding re NE 15-46-7 that as a motion has been passed to the effect that this land be leased for the current taxes his offer cannot be accepted.—Carried.

Moved by Coun. Dalton—That the Secretary notify Messrs. G. B. Gold-

Bon Voyage to Mr. Mrs. Daugherty

On Thursday evening, May 19th, about 60 members and adherents of the United Church, gathered at the Manor to bid farewell to Mr. and Mrs. J. W. Daugherty and wish them health and happiness in their new home on the Isle of Man. Both have given of their best in the interests of the church during the years they have spent in Wainwright.

During the evening many games and contests were entered into by all those present, causing much fun and laughter.

A delicious lunch was served, after which Rev. Armstrong, in some very appropriate words, and in behalf of those present, accepted Mr. and Mrs. Daugherty to accept as a small remembrance from the Wainwright church, two travelling cases. Both voiced their appreciation and the singing of "Blest be the tie that binds" and "Auld Lang Syne" brought to a close a very enjoyable evening.

Tickets are now on sale for the concert which is being given on Friday evening next in the Separate school auditorium. Outside talent is being included on the programme and all are invited.

IRMA POINT FOR HOPPER BAIT MIXING

The Council of the Municipal District of Battle River No. 422 met on Thursday May 12th, with a full council present and Reeve Smallwood in the chair.

Moved by Coun. Stewart—That the minutes of April 14th be approved as read with the correction to Motion 193 to read "Maintaining 75c per road mile" instead of 70c per road mile.—Carried.

Moved by Coun. Blackley—That the council authorize the Reeve and Secretary to sign form A.R. 10-1, preliminary application for settlement re C. Lindbeck when satisfied with said applicant's questions.—Carried.

Moved by Coun. Collette—That relief be extended to C. Lindbeck until June 1st, foot \$12.00, shelter \$5.00, sending accounts to the provincial government for payment.—Carried.

Moved by Coun. Stewart—That the report of Coun. Smallwood re J. G. McKie medical attention and action taken be accepted and approved.—Carried.

Moved by Coun. Blackley—That the report of Dr. Greenberg, M.H.O., re J. G. McKie be accepted.—Carried.

Moved by Coun. Smallwood—That relief be extended to J. G. McKie for \$10.00 until June 8th.—Carried.

Moved by Coun. Smallwood—That J. G. McKie come to town on Tuesday May 17th and that the secretary be instructed to make arrangements with Dr. Springbett for the extraction of Mr. McKie's teeth on account of illness.—Carried.

Moved by Coun. Stewart—That the report of Dr. Greenberg, M.H.O., re J. G. McKie be accepted.—Carried.

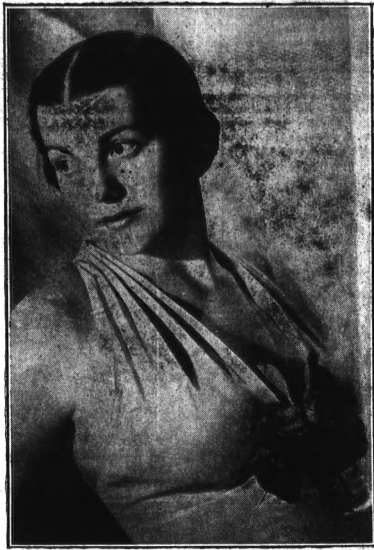

Moved by Coun. Blackley—That the report of Messrs. Smallwood, Dalton and the Secretary re Abernethy children be accepted.—Carried.

Moved by Coun. Blackley—That relief be extended to J. Baska for \$3.00 until June 8th.—Carried.

Moved by Coun. Smallwood—That the Secretary reply to letter from G. B. Golding re NE 15-46-7 that as a motion has been passed to the effect that this land be leased for the current taxes his offer cannot be accepted.—Carried.

Moved by Coun. Dalton—That the Secretary notify Messrs. G. B. Gold-

Sair Lee, Soloist

Appearing on many CBC programs originating in Montreal, Sair Lee always gives a good performance. Heard on Club Matinee as guest artist, she

was acclaimed "tops" a rating CICA fans have been giving her since way back when.

Provincial Cancer Fund to Benefit

Furthering the aims of the provincial W.I., the local branch sponsored a home cooking sale and tea on the afternoon last and the effort of the local ladies met with a real hearty response.

Selling was brisk all afternoon and quite a large number of guests kept the tea-tables in use from three to six o'clock. The financial results are reported as very gratifying.

Member Leaves For States Appointment

Another faithful worker in the local Rebekah lodge has completed arrangements whereby she leaves this week for Detroit, Mich., and it was to honor this young lady, Miss Olive Wheeler, that her sister members gathered at the home of Mrs. Ed Turner following their regular meeting on Thursday evening last.

A short programme of games and contests was enjoyed before a dainty lunch was served.

Miss K. Hart, Noble Grand of Adelphi Lodge, in presenting the guest with a handsome picture of a Buffalo Park scene, expressed the regret of the lodge in losing Miss Wheeler as she had always been a conscientious and willing worker and a faithful sister at all times.

The recipient fittingly thanked all concerned and assured them that her pleasant associations with Adelphi Lodge would not be forgotten.

The singing of Auld Lang Syne brought the little party to a close.

On the eve of her departure to make her future home in the States, Miss Olive Wheeler, who has been a popular nurse in the Wainwright Municipal Hospital, was the guest of honor at the home of Mrs. F. McLeod Monday evening.

A pleasant evening was spent in games and a very dainty lunch was served. Miss Wheeler was presented with a branch from the tree of friendship. This branch was loaded with blossoms each being a lovely handkerchief. After singing, "For she is a jolly good fellow" and "Auld Lang Syne" "Good bye" was said to another Wainwright citizen.

LOCAL NOTES

Mr. and Mrs. H. P. Schlitt were trappers to the city last week on business.

Messrs. Geo. Boyd and Kilby Bros. are both using their new John Deere tractors obtained through Lou Tury last week.

Mr. Harold Brunner explains how thoroughly she enjoys improving her farm in the garden these days.

Mr. J. Tolford has improved his town house by the addition of a glassed-in verandah and a couple of coats of paint.

Mr. and Mrs. Dave Davidson motored to the city on Tuesday. They were accompanied by Mr. and Mrs. A. Sawers.

Surely it is most time that someone saw to it that the town barn around the skating rink was stacked for next winter before it is all carted away for other purposes (1). In any case, it's not a beauty spot by any means; the shape it's in.

High School Pupils Give Pleasant Dance

In a hall prettily decorated with the school colors of black and gold, the pupils of the high school entertained quite a large number of devotees of the dance on Friday evening last.

To the strains of a four-piece orchestra of school members the merriment was kept going till a late hour, and at midnight a dainty lunch was served by members of the gentler sex.

Alberta Suffers By Montana Control

Why the price of Turner Valley crude oil must be kept at a level having a very definite relationship to the price of Montana oil was explained in a memorandum submitted to the Tariff Board of Canada recently by F. G. Cottle, Chief Auditor of the Alberta Board of Public Utilities Commission.

The memorandum was as follows: "Although Montana crude oil cannot compete with Turner Valley crude at Calgary refineries, it can quite definitely compete at refineries in Saskatchewan and Manitoba or at Coats. This statement is based on the fact that the price of Turner Valley crude must be low enough to secure the Saskatchewan and Manitoba markets.

"The lower crude prices in Montana result in lower refinery prices of finished products. This means lower retail prices, not only in southern Alberta, but by reason of the basis of the Alberta price structure, over the entire province. Lower refined products in Alberta naturally result in lower crude prices for Turner Valley, so that crude prices in Montana control the price in Turner Valley independent of the product competition offered by Montana crude in Saskatchewan and Manitoba."

The report of the matron for the month of April, reading as follows, was accepted and passed:

Patients admitted 49
Patients discharged 45
In hospital 15
Maternity cases 7
Infants born 7
Medical cases 21
Surgical cases 14
Major operations 4
Minor operations 10
Deaths 7
Hospital days for month 395
The meeting then adjourned.

TOWN'S ANN. REPORT HEALTH, SANITATION

The following is a copy of the report sent to the Town Council by the provincial department of health in connection with the recent visit of the inspector from Edmonton on his annual round-up:

Dairies—There are three (3) dairies distributing milk and cream within the Town of Wainwright, viz: J. A. Alexander, J. Bear and Mr. McCrystal. All are delivering under permit from the town.

Mr. McCrystal distributes milk only.

The others apparently find it necessary to obtain supplies from other sources where certificates of registration have not been granted by the local Board of Health.

In the case of J. Alexander, cream supplies are obtained from the farm of Mr. Wheaton, who was formerly in the dairy business, and whose farm premises have been approved, but no certificate of registration ever applied for or even given.

Another supply farm (for cream only) is the Aykroyd farm adjoining Wheaton's. These premises have not as yet been approved nor certificate granted.

I pointed out to Mr. Alexander that his supply farms must first be approved before he purchases cream for distribution.

The herds at both supply farms have been subject to the tuberculin test, and both premises appear to be maintained in a clean condition. The barn at the Aykroyd farm is unfinished and not in accordance to the dairy regulations.

The premises of J. Bear have been improved and now both milk-house and barn are in order, with the exception of the barn which must be white-washed inside.

Mr. Bear obtains other supplies from the farm of a Mr. Hendon.

I visited the Hendon farm and found conditions very unsatisfactory. Ten (10) cows are tuberculin tested and these are kept in a barn which was recently built with bridge timbers. Floors are holed in the same building, contrary to regulations; the floor is uneven with no drainage, lighting is poor and the interior needs white-washing. The yard is low and the surroundings very dirty.

In another barn, unit for use, other cows which are not tuberculin tested, were housed. (The cows are said to be dry but they were apparently grazing in the same pasture as the tested cows.)

There is no milk house on the Hendon farm. Bear's cow barn, I noted three (3) cows, two of which have not been tuberculin tested and the other

HOSPITAL BOARD CALL ANN. RATEPAYERS' MEETING

Following are the minutes of the regular meeting of the Board of the Wainwright municipal hospital held on May 14th, when Trustees Fuller, Bleasdale and Collette were present, with Secretary Stuart.

On a motion by Trustee Collette the minutes of the previous meeting were adopted as read.

Moved by Trustee Bleasdale—That the resignation of Miss O. Wheeler be accepted, and that she be given a letter of recommendation; also that action of the chairman be approved.—Carried.

Moved by Trustee Collette—That the resignation of Miss O. Wheeler be accepted, and that she be given a letter of recommendation; also that action of the chairman be approved.—Carried.

Moved by Trustee Collette—That Dr. G. R. Davidson be informed that he can use the hospital for a T.B. clinic on June 15th, 1938, and that a charge of one dollar will be made for each x-ray taken; the clinic to supply all necessary films.—Carried.

Moved by Trustee Bleasdale—That a copy of the minutes of each meeting in future be sent to the department of health.—Carried.

Moved by Trustee Collette—That the next meeting of the Board be held at 10 a.m. on June 11th next, and that the annual ratepayers' meeting be held in the Town Hall, Wainwright, at 2 p.m. on the same day. An advertisement of the meeting to be inserted in two issues of the Wainwright Star and Irma Times.—Carried.

Moved by Trustee Collette—That Chairman Fuller be authorized to have the water tank installed.—Carried.

Moved by Trustee Bleasdale—That the accounts, totalling \$1164.54 be accepted and cheques issued for same.—Carried.

The report of the matron for the month of April, reading as follows, was accepted and passed:

Patients admitted 49
Patients discharged 45
In hospital 15
Maternity cases 7
Infants born 7
Medical cases 21
Surgical cases 14
Major operations 4
Minor operations 10
Deaths 7
Hospital days for month 395
The meeting then adjourned.

At the conclusion of the games, the visitors were royally entertained at the school at nice lunch, and Coach Oke, while feeling elated at the success of his Hardy players, had some nice remarks to make of the way in which our local basketballers shaped up in the two encounters.

The score sheet got lost in the mixer, but although the Wainwright boys and girls were decidedly low in points they truly gained a lot of experience in the games and also had a splendid time.

At the conclusion of the games, the visitors were royally entertained at the school at nice lunch, and Coach Oke, while feeling elated at the success of his Hardy players, had some nice remarks to make of the way in which our local basketballers shaped up in the two encounters.

The score sheet got lost in the mixer, but although the Wainwright boys and girls were decidedly low in points they truly gained a lot of experience in the games and also had a splendid time.

The local board of health is apparently handling the situation with a view to enforcing the provincial dairy regulations and I saw no reason to interfere in the matter.

Both Messrs. Alexander and Bear should be again checked up in respect to the sources of additional supplies. My instructions were made quite clear to them in that regard.

The various places of business about town were found satisfactory—Hotel, Wainwright Hotel; Cafes, Empress and Buffalo; Bakery, Cowley; Butcher shop, Alma Meat Store.

The premises of the Hallet meat store needs re-decorating and should the proprietor continue in the same location I have reason to believe the work will be carried out.

Pool Hall, premises were in order; Barber shop, Telford's, condition good.

The town, I understand, is to have its semi-annual clean-up in the near future.

Scavenging is carried out regularly by an employee of the town.

I noted a few of the toilet superstructures in a broken condition and I would suggest that the local board of health issue a general order for all such structures to be maintained in a good, sound and fly-proof condition.

(Signed) J. BUTTERFIELD, Health Inspector
April 12th, 1938.

School Teams In Basketball

Saturday morning last saw four carloads of Wainwright school basketball players en route to Hardy to try conclusions in their first out-of-town game, and although both the boys' and girls' teams were short on the scoreboard at the close of the day's play, some splendid combination work was witnessed and the sport was clean throughout.

The game between the boys' teams was somewhat faster than the first (girls') game but was run through in real good sportsmanship, although the greater experience of the home teams in each instance proved the deciding factors in gaining points.

Coach Hedley Abbott declares that he is well satisfied with this first showing of his youngsters, and feels that although both games went to his opposing mentor the Wainwright youngsters are to be commended on their first showing, and may possibly yet produce some Grads or at least Graduates. He assures all parents that a welcome awaits them at the practice games on the school grounds; and, of course, the teams would give the encouragement this would give.

At the conclusion of the games, the visitors were royally entertained at the school at nice lunch, and Coach Oke, while feeling elated at the success of his Hardy players, had some nice remarks to make of the way in which our local basketballers shaped up in the two encounters.

The score sheet got lost in the mixer, but although the Wainwright boys and girls were decidedly low in points they truly gained a lot of experience in the games and also had a splendid time.

The score sheet got lost in the mixer, but although the Wainwright boys and girls were decidedly low in points they truly gained a lot of experience in the games and also had a splendid time.

Tax Reduction Of Four Mills

Taxpayers of Wainwright surely have something to feel good about now that the Council have set their estimates of expenditures for the current year, in that the resultant effort shows that the tax rate for 1938 will be four mills less than that called for last year.

The appropriations to the several committees for repairs, improvements, etc., have been cut to the very bone, and although the fixed expenditures—salaries, debt service payments, and so forth—cannot be eased in any way, the tax collector will charge only 44 mills this year as against 48 mills called for in 1937.

The total tax will be apportioned as follows: Municipal and debt service payments, 22.5; schools, 18.5; hospital 3. The provincial social service tax which calls for another three mills over the above is levied on land only.

The tax rate on farm lands will be 10 mills, and that on subdivided lands outside the town limits 18.5 mills with a minimum per parcel of fifty cents.

A new registration booth is being built at the main Wainwright gate on the Buffalo National Park these days.

NOTICE

By authority in me vested a PUBLIC MEETING will be held in the Town Hall, Wainwright, on Friday next, May 27th, at SEVEN-THIRTY p.m. sharp to discuss the advisability of holding a celebration in Wainwright on July 1st next.

J. G. MIDDLEMASS, M.D.

25-5

Mayor of Wainwright

Comedy Features Juvenile Singer

There's a lot of amusement in "Little Miss Houghneck", the week-end picture at the Elite. As the film runs through comedy, melodrama, romance, burlesque, suspense and excitement, there is a surprise in the person of Edith Folsberg, juvenile singer, whose operatic numbers, ballads and Mexican folk songs brought applause.

"The motivation is hectic. 'Foxine', a talented but spoiled brat, makes flash of the plans of her mother, 'Glad', to make a prodigy professional performer out of her. She also makes life miserable for a Hollywood agent, 'Partridge', but he finds solace in being in love with her older sister, 'Mary'. 'Foxine' makes a mess of a kidnapping plot by running away. 'Partridge', endeavoring to return her to Hollywood, is endangered by a lynch-mob mob. But everything ends happily.

"Little Miss Houghneck" is a comedy picture that the whole family will enjoy.

BRUCE
BARTON
Says

Moving Mountains Is Not Easy

Mahomet, who after more than a thousand years has two hundred
and twenty million followers, told the people that he was directly com-
missioned by the Almighty and hence endowed with supernatural
powers. The Arabs, being skeptical, said: "If you will cause Mount
Safa to come to you we will believe that you really have the goods."Mahomet accepted the challenge and, full of faith in himself, com-
manded the mountain to approach. Nothing happened. Mount Safa
did not budge an inch. This was a ticklish moment. Had he been a
modern politician he would immediately have sought to divert the
people's minds by crying: "I did my best, but the Supreme Court would
not let me." Or, "The House of Morgan has run around behind the
mountain and nailed it down."Mahomet was wiser. Said he: "God is merciful. Had the mountain
obeyed my command it would have fallen upon us, and all you Arabs
would have been killed. I, therefore, will go to the mountain, and I
thank Allah for having had mercy on a stiff-necked generation."The stiff-necked and bare-footed Arabs, wooed by the candor and
innate wisdom of the remark, concluded that so wise and frank a gentle-
man must indeed be endowed with something more than human intelli-
gence, and promptly gave him their loyalty.

There's Always Reform

Theodore Roosevelt was the first reformer. He denounced the "mala
factors of great wealth," and with a vast pointing of the bare drum, he
chased them away and "restored the government to the people."Then came Woodrow Wilson, who likewise marshalled the forces of
the righteous against the iniquitous power of Wall Street, and again
"restored the government to the people."Now Franklin Roosevelt. He, too, finds that government has somehow
drifted back into the control of "entrenched greed," and so he sounds the
Tocain and "restores the government to the people."Very decided good was accomplished by Theodore Roosevelt. The
Federal Reserve System is an enduring monument to Wilson's adminis-
tration. Some, at least, of the reforms of Franklin Roosevelt will prove
permanent.But reform is not a one-night show; it is a continuing necessity.
Human nature is stubborn; progress is slow. Action and reaction follow
each other. A thousand years from now, if the Republic lasts that long,
the President of that day, having ridden the white horse of Reform
against the bulwarks of Wall Street, will announce to his adoring fol-
lowers that the "government has been returned to the people of the
United States."

SUGGESTIONS FOR IRRIGATING
A VEGETABLE GARDENThe success of an irrigated vegeta-
ble garden according to the results
obtained at the Dominion Experiment-
al Station at Lethbridge, depends very
largely on the methods employed in
preparing the land, the method of ir-
rigating and the time at which the
different vegetables are irrigated.The irrigated vegetable garden, ex-
perience has shown, gives the great-
est response when it is ploughed in
the fall. It is also important that
the land be humped immediately af-
ter it is ploughed to prevent the for-
mation of hard dry clods. If knolls
or mounds of soil are present, as is
often the case when land is to be ir-
rigated for the first time, they are
levelled in the fall with a shovel or
with a team and scraper if much lev-
elling is to be done. It is important
to provide surface drainage for any
low-lying places or depressions. Dur-
ing the irrigation process, the soil
must be thoroughly soaked but water
should never be allowed to stand on
the surface of the land for any length
of time after the irrigation is finish-
ed as this invariably injures the grow-
ing plants.In the spring a drag or "float" is
drawn across the entire garden at
right angles, or diagonally, to the di-
rection in which the garden was
ploughed. This leaves the surface
smooth and makes an excellent seed
bed. The float referred to is in the
form of a rectangle 6 or 7 feet wide by
16 to 20 feet long and is made of
planks 10 or 12 inches wide. Plans
for the construction of this float may
be obtained free by writing to the Do-
minion Experimental Station, Leth-
bridge, Alberta.Row irrigation is invariably prac-
tised with a vegetable garden. This
method is distinctly different from the
flood method used with grain or hay
crops where the water is spread over
the entire soil surface. With furrow
irrigation of the garden every effort
is made to prevent the water touch-
ing the plants. The water should be
made to trickle in shallow furrows
between the rows of vegetables long
enough to thoroughly soak the ground
between the furrows where the plants
are growing. The rows of vegetables
should be planted so that water may
run uninterrupted from the upper to
the lower end of the furrows. If
the rows are very long it may be ad-
visable to make some cross ditches.
On average soil, on land having a
gentle slope, it is practical to run the
water in the furrows from one ditch
to another for a distance of from 200
to 300 feet.The different vegetables vary con-
siderably in regard to the time at
which they require irrigation water.
Such kinds as potatoes, tomatoes,
peas, beans, vine vegetables, peppers,
egg plants and corn require the great-
est amount of moisture after theystart to blossom. The root and leafy
vegetables such as parsnips, carrots,
beets, onions, cabbage, lettuce, chard,
rhubarb and asparagus enjoy frequent
irrigations all through the growing
season. The irrigation gardener
should place the vegetables requiring
water at the same time, in the same
rows, or in the same part of the gar-
den so that they can be irrigated
when necessary without disturbing the
other plants.RANGE CARE OF PULLETS
(Experimental Farms Note)The time to allow chicks free range
without heat will depend on the sea-
son. Usually when the birds are six
to eight weeks of age they can get
along if care is taken to see that they
do not run out on wet days or get in
the long wet grass. Before allowing
the above to go out, put in low roasts
and get the birds accustomed to roost-
ing. The above may be left in the
house without a fire for several days,
to be ready in case of an emergency.In planning a range for the pullets
it is advisable to plan a year in ad-
vance so that a plot of clover will be
available each year, states B. F.
Cheney, Head Poultryman, Experi-
mental Station, Kentville, N.S. In
order to have the birds on clean
ground every year three plots of
ground should be available, one being
in roots or corn, one in grain and the
other in clover. With this system of
range rotation in operation it has been
possible to handle three to four hun-
dred pullets on a little over one-half
acre of ground each year and the
birds have had an abundance of green
feed. The clover is cut late in June,
allowing new tender shoots to grow
for feed during July and August. If
the part of the run used early in the
season becomes bare the houses may
be shifted and the bare area ploughed
and seeded to oats for a further sup-
ply of green feed.When placing pullets on range, ef-
fort should be made to have the
houses, containing the younger birds
as far as possible from the older birds
—if this is not done the young birds
will suffer. Do not over-crowd the
houses; 75 to 100 pullets is plenty for
each house. Space the houses evenly
over the available area. Some shade
should be supplied and for this no-
thing is better than to have the range

House of Hazards

By Mac. Arthur

next a patch of corn.

Feeding on range can be quite
simple. Place one four-foot covered
hopper of growing mash and one of
grain for each house, along with one
large water fountain. Limestone grit
or oyster shell should be provided and
a supply of clean, fresh water should
always be available. See that the
hoppers are kept filled with mash and
grain. If there is a plentiful supply
of green feed the birds should make
good growth. Place all feeding and
water utensils up off the ground on
frames four inches high covered with
inch-mesh wire to prevent the birds
from coming in contact with the
ground. These feeders should be
moved frequently during the season
so that the ground around the hop-
pers will be kept clean at all times.Keeping the range houses clean is
very important as dirty houses in the
warm weather are harmful to the
birds' health. Clean the houses every
two weeks and go over the roosts for
mites at least once a month.The Family
DOCTOR

By JOHN JOSEPH GAINES, M.D.

Sugar Important to Health

An authority from Vienna attributes "strikingly favorable results"
in the treatment of heart disease and stomach ulcers, with table sugar.
If I had these sort of complaints, I'd consult my doctor as to how to
use the sweet. You know, sugar is one of our staples.The value of sugar "in relieving fatigue and supplying quick energy,"
also has scientific endorsement. The Vienna authority is believed to be
the first to suggest the use of sugar in the treatment of certain, widely
prevalent disease. He, (Dr. Roch) claims to have used sugar in the
treatment of stomach and duodenal ulcers, with good success. He no-
ticed increase of appetite, with better food-tolerance, an increased supply
of mucus, favored by the sugar.He saw improvement in the habitual constipation in such cases, less
notable gain in weight. Too, remarkable increase in nerve-force, less
melancholia, and more happy disposition in the gloomy victims.The relief was not immediate but gradual and lasting. He says,
"sugar is the most important nutritional element of the heart, in that
it lowers blood-pressure and stimulates the liver and kidneys." Dr.
Donald A. Lard, of Colgate University, contributes to a scientific sym-
posium on sugar; he states that sugar contributes to restful sleep. This
argues, almost, for a chocolate at bedtime, doesn't it?Dr. Lard also declares it to be valuable in curing "vague feelings of
fatigue, so common among physicians' patients." A remedy for "that
tired feeling," so commonly met. In short, if sugar helps relieve mental
and physical tired, and favors restful sleep, then it certainly is among our
most valued foods.VERY

MARCH OF TIME

Early century monks in their mon-
astries fostered the Brewing art.
Commercial Brewers learned the
lore . . . and in the "MARCH
OF TIME" Alberta Brewers have
inherited this rich legacy of skill.
Today Alberta Beers are made as
the finest Beer used to be made . . .
following the same formulas . . .
depending on "TIME" alone to
assure that rich, full-bodied good-
ness so prevalent in every bottle of
Alberta-made Beer.

**LET'S ALL
CLEAN UP**
We congratulate all those citizens who are painting up this spring and hope that all who can will follow suit. There is something that spells permanency and peace in the care and improvement of homes and surroundings, and it is a very healthy sign when people are interested in these movements. While many will find themselves unable to paint, and others do not need it, all of us can clean up and dispose of the accumulation of rubbish that is such an eye sore to the casual visitor to any town. It will not be many weeks until the flowers are blooming and the gardens are in bloom, and what a fine sight it makes around any home to see a nice array of blooming flowers, and a healthy and well-kept garden. Besides the appearance, one can't help but think, "well, whoever lives there certainly enjoys the beauty of flowers and the benefit of a nice garden."

We appreciate, too, that these things take work and plenty of it, but happy is the man or woman who enjoys this kind of work, because it is healthy and invigorating, and enhances anyone's appreciation of nature and the beautiful.

Finances put the measurement to the paint campaign and while it is also, judgment has to be used in this, although at the present price of paint and varnishes locally, a few dollars will go a long way in this matter.

However, with respect to well kept surroundings and a flower garden, work is the main thing, and because of the benefit individually and collectively of a neat and well kept town with trees, flowers and lawns, we hope that everyone will make an effort to get in and stay in the campaign for a more beautiful town.

Continuation of TOWN COUNCIL

(Continued from page one)
porate Seal of the Town of Wainwright.

On motion by Councillor Welch, it was unanimously resolved that no discount be allowed on Provincial Social Service Taxes nor on Hospital Taxes nor on minimum taxes levied for school purposes upon lots outside the corporate limits of the Town of Wainwright but that a discount of 10% be allowed by way of rebate on all other current taxes paid to the office of the Secretary-Treasurer on or before the last day of October, A.D. 1938 and that in case of deferred payment of current taxes, otherwise entitled to discount, until after the said last day of October 1938, a discount of 5%, by way of rebate, be allowed, if payment is made on or before the last day of November, A.D. 1938, and the Secretary-Treasurer was instructed to observe the rebates herein authorized strictly in accordance with the dates mentioned.

A petition, signed by a considerable number of businessmen, requested the amending of the Early Closing Bylaw to appoint the time for shop closing on Saturday nights at 11 o'clock instead of 10 o'clock as incorporated in the said bylaw, and on motion by Councillor Cork, the petition was received and the amendment approved and the petition was referred to the Bylaw Committee for the preparation of the amending bylaw.

On motion by Councillor Link, Mayor Middlemas was requested to set a date for a public meeting to consider arrangements for July 1st celebration.

Mrs. Sofia Hopalik requested an increase in the amount of her Mother's Allowance and, on motion by Councillor Lismore, her request was not entertained by council.

On motion, Council was regularly adjourned.

**CONTINUATION OF
BATTLE RIVER M.D.**

(Continued from page one)
that this Municipal District is not responsible under the Child Welfare Act—Carried.

Moved by Coun. Blakley—That the semi-annual report of Mothers' Allowance re Mrs. T. Meyers that an increase of \$10.00 for the months of April and May and allowance then revert back to \$40.00 per month on account of two children being over age as per section 4 of the Mothers' Allowance Act be accepted.—Carried.

Moved by Coun. Dalton—That the semi-annual report of Mothers' Allowance re Mrs. D. Figgishan that allowance of \$35.00 per month be left as now set be approved.—Carried.

Moved by Coun. Collette—That the semi-annual report of Mothers' Allowance re Mrs. E. Worthington that allowance of \$12.00 per month be left as now set be approved.—Carried.

Moved by Coun. Steele—That the semi-annual report of Mothers' Allowance re Mrs. A. Latch that allowance of \$20.00 per month be left as now set be approved.—Carried.

Moved by Coun. Steele—That the semi-annual report of Mothers' Allowance re Mrs. Elliott that allowance of \$15.00 per month be left as now set be approved.—Carried.

Moved by Coun. Dalton—That Hans Killy be appointed road foreman for Division 1.—Carried.

Moved by Coun. Smallwood—That P. J. Harvey and H. Kasten be appointed road foremen for Division 3.—Carried.

Moved by Coun. Stewart—That Carl Larson be appointed road foreman for Division 4.—Carried.

Moved by Coun. Collette—That J. H. Fletcher be appointed road foreman for Division 6.—Carried.

Moved by Coun. Stewart—That the Secretary advise the department of agriculture that the Council will accept their offer that the Municipal District of Battle River No. 423 at Irma be the mixing station for grasshopper bait.—Carried.

Moved by Coun. Collette—That the Reeve and Secretary be appointed as a committee re grasshopper bait mixing station.—Carried.

Moved by Coun. Dalton—That A. E. Peterson and M. D. Askin be appointed weed inspectors for the Municipal District, Mr. Peterson's portion to be all along 9 and Mr. Askin's portion to be the balance of the municipality.—Carried.

Moved by Coun. Collette—That a notice be placed in the Irma Times that application will be received for the position of assessor for the Municipal District of Battle River No. 423 not later than June 6th, applicants to state qualifications.—Carried.

Moved by Coun. Blakley—That the list of tax consolidations subject to cancellation be tabled until the June meeting.—Carried.

Moved by Coun. Dalton—That relief be extended to T. J. Bronson for \$6.00 until June 8th.—Carried.

Moved by Coun. Blakley—That the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of Nine Hundred Dollars deemed necessary for municipal purposes.—Carried.

Moved by Coun. Steele—That motion No. 186 of April, 1938, be rescinded.—Carried.

Moved by Coun. Steele—That man and 2-horse team with gravel box be paid \$5.50 per day.—Carried (Coun. Smallwood voting nay).

Moved by Coun. Stewart—That the monthly statement of receipts and expenditures for April, 1938, with the exception of public works allocation by divisions, be accepted as presented.—Carried.

Moved by Coun. Steele—That the account of Dr. Greenberg, \$15.00, re Mrs. Lambert, be tabled until June meeting.—Carried.

Moved by Coun. Collette—That the bills and accounts, amounting to \$1167.52, be passed and paid.—Carried.

Moved by Coun. Steele—That the next meeting of the Council be held on Wednesday, June 8th, instead of Thursday, June 9th, on account of the King's Birthday proclamation.—Carried.

Moved by Coun. Blakley—That relief be extended to Mrs. A. Kelsky for \$6.00 until June 8th and charge to provincial government.—Carried.

Moved by Coun. Blakley—That Geo. Rubenok be appointed poundkeeper for Division 2.—Carried.

Moved by Coun. Smallwood—That Coun. Dalton be given power to lease the SE 28-45-7 W4th for the current taxes and report at June meeting.—Carried.

Moved by Coun. Dalton—That the Council adjourn.—Carried.

**George Arliss Gives
Fine Performance**

Essentially, "Man of Affairs" is a comedy of character. George Arliss, in dual role, never has acted with greater finesse, a more acute sense of character or more obvious enjoyment than he does in this Palm-night picture. You may say he is at his best without any fear of comedians. Similarly, the entertainment values of the story, based on the Neil Grant play, "The Nelson Touch," will justify any ingenuity used in exploiting its originality.

Richard Duncester, a traveller and an expert in the politics of the Near East, rescues Bill Howard, a young fellow-countryman who is being pursued for the murder of a ruling Emir Abdullah. Actually, the potentate has been slain by two powerful chiefs.

Duncester smuggles Howard to England as his servant and, to save the son of the late ruler from the chiefs, who are coming to take him back to the East, appeals to his twin brother, Lord Duncester, the foreign secretary. Duncester, a pompous, self-satisfied politician, will not listen to him and handles so badly the negotiations with the sheiks, who are demanding compensation for the death of Abdullah, that an outbreak of war is imminent. Richard therefore kidnaps him, locking him in Howard's flat, while he himself takes his brother's place.

Only the prime minister realizes the deception which has been practiced. The rest of the world acclaims Duncester as a great statesman. Richard returns to the East, without Howard, who has found time to become engaged to Duncester's secretary.

More than 22,000 different kinds of wood have been classified.

How Do "Little Savings" Finance Mortgage Loans?

Answer.—Every mortgage loan made by a Life Insurance company is made up of the savings of several policyholders.

Question.—What do these savings represent?

Answer.—They represent the money which thrifty men and women have invested in Life Insurance for the protection of themselves and their dependants.

Q.—What is the average policyholder's share in Life Insurance assets?

A.—Approximately \$571.

Q.—Then it would require most of the accumulated savings of six policyholders to make a mortgage loan of \$3,000?

A.—That is a fact.

Q.—How much Life Insurance money is invested in mortgages?

A.—More than \$382,000,000, in first mortgages on farm, town and city properties in Canada.

Q.—In whose interests are these investments made?

A.—In the interests of more than 3,500,000 Canadian policyholders, most of whom are in modest financial circumstances.

This is the seventh of a series of messages sponsored by Life Insurance Companies operating in Canada. The eighth, to appear in two weeks' time, will deal with Life Insurance as Canada's greatest co-operative business.

PUBLIC NOTICE

RE: AGRICULTURAL PESTS ACT

RE DESTRUCTION OF GRASSHOPPERS

THE MUNICIPAL DISTRICT OF GILT EDGE

No. 422

To: All owners and occupants of land.

Your attention is directed to the provisions of the Agricultural Pests Act, which requires every owner and occupant of land to destroy all pests specified within the aforementioned Act.

The Municipal District is required to direct and see that every owner and occupant of land takes the necessary precautions and conducts an active and aggressive control programme with respect to grasshoppers present on lands under its control.

The Act provides for quite severe penalties for anyone failing to comply with its regulations.

A research conducted by The Department of Agriculture last season indicates that this district may expect to be troubled with Grasshoppers in 1938.

While it is believed that the weather conditions so far this spring have been unfavorable to the hatching of the grasshopper eggs every occupant of land should report any patches discovered to their Councillor or the Secretary immediately.

Your attention is directed to the suggestions made on the government poster which can be seen at the Municipal Office.

BY ORDER
H. U. TAYLOR,
Secretary-Treasurer.

on the farm of LEE F. GREEN
near Deuberry, Alberta

FIVE weeks after Mr. Green had started his new Diesel RD4 "Caterpillar" Track-Type Tractor, which is shown above pulling a 10½-foot one-way, he wrote stating, "The tractor has operated 288 hours, and is giving complete satisfaction, operating on slightly less than 1½ gallons per hour of 9¢ fuel. I have seeded 700 acres of crop and to date summer-fallowed 150 acres. In addition, the tractor has earned a substantial sum in custom work for neighbors."

To summarize, THE TRACTOR HAS MORE POWER AND USES LESS FUEL THAN I HAD EXPECTED."

Here is definite proof of what "Caterpillar" Track-Type Tractor power and efficiency will accomplish under actual farming conditions in Alberta. Put one to work on your land, and watch your power problems vanish... and with them a large part of your operating costs.

Ask Us to Show You the Reasons Why—

AMONG THE OLD-TIMERS

"REMINISCENCES OF OTHER DAYS"

TEN YEARS AGO

Mr. J. Alderman was injured while at work on a wrecked engine near Irma last week.

It was announced that Rev. G. G. Pybus, United Church minister at this point, was transferred to Daysland and his place taken by Rev. N. W. Whitmore, B.A. of Empress.

Mr. Alex (Sandy) Miller had the misfortune to lose his barn and granary by a fire which broke out last week from an unknown cause. Quite a large quantity of feed was also destroyed.

Mrs. J. Middlemass underwent an operation in an Edmonton hospital last week.

After spending the winter in Hamilton, Ont., Mrs. C. Turner and son Ed returned to town on Friday and have taken up residence on Sixth avenue east.

Mrs. Robert Kenny, a pioneer resident of this district, died at Vancouver on Wednesday after a lingering illness. She was 63 years of age. Having installed one of the latest models of Frigidaire, the Standard Pharmacy have made arrangements to open a modern ice cream parlor at their quarters on Second Avenue.

Mrs. J. W. Stuart left for Calgary to attend the sessions of the Women's Institute convention, as a delegate from the local society.

Rose, the thirteen-year-old son of Mr. and Mrs. William Treffry, was accidentally drowned while wading in the waters of Mott Lake in the Buffalo Park on Saturday morning.

Miss Kelly arrived from Lacombe to begin her duties at the local hospital following the official opening.

TWENTY YEARS AGO

Plans were made by the firm of May and Simpson to erect an up-to-date office building on the vacant lot between the premises occupied by Messrs. W. S. Clark and Beaudry. Mr. W. D. McKay was appointed contractor.

Mr. P. C. Haymes, for several years manager of the Union Bank here, received word of his transfer and the vacancy has been filled by Mr. G. C. Siddall.

At a meeting held last week, the Wainwright Band was re-organized with the following officers in charge: President, Mr. A. E. Mills; vice-president, Mr. Murray Pawling; secretary, treasurer, Mr. Earl Boyd; librarian, Mr. J. Richardson and conductor, Mr. E. E. Chandler.

Miss Dea, of Edmonton, accepted a position in the Armstrong store.

Register Smartly

—By Jane Dee

CONTINUING your studies this Summer? Now is the time to begin planning your wardrobe. Many of your Spring clothes may be used throughout the hot days ahead, if you choose them wisely and well.

For instance, sheers are popular now, and what could be better when the thermometer mounts to sizzling heights? Then, there are color combinations to be considered and they are most important. Perhaps you are in doubt regarding the type of clothes you'll require.

Why not write to me? I'd like to help you plan your wardrobe, to make suggestions regarding your most flattering colors and how to combine them most effectively.

Have a smart wardrobe and you'll get through your course with flying colors!

Jane Dee

EATON'S

Following the transfer to Crossfield of Rev. R. K. Swenerton, minister of Grace Methodist church here, Rev. N. P. Priestly was appointed to succeed him.

GREENSHIELDS

The school's football team journeyed to Heath on Saturday for a game and were on the winning side of the 13-11 score.

Mr. Douglas Jackson left on Friday for Sherbrook, Quebec, in quest of employment.

The men's football team played the high school team on Sunday, winning 24-10.

We extend our sympathies to Mr. G. Rajotte, who had the misfortune to break his leg while harvesting on Wednesday last. We wish him a speedy recovery.

Mr. and Mrs. Currie, who formerly resided in Wainwright, are here from California visiting at the home of their niece, Mrs. G. Rajotte.

We learn that wedding bells are going to ring on June 1 for a local young couple.

HEATH

Mr. Bert McDonald, of Toronto, is visiting Mr. Colin Dixon and renewing acquaintances in the district.

A number of neighbors spent a day during the past week putting in the crop on Art Sabourin's farm.

Mr. and Mrs. Fred Mockford of Sudbury, arrived on Thursday for a visit with their relations.

Mr. Colin Dixon had the misfortune to sprain his ankle and was laid up for a few days.

St. Patrick's W.A. met on Thursday afternoon at the home of Mrs. Patterson. Arrangements were made for their annual garden party to be held on June 10th at the Patterson home.

Mr. and Mrs. Fred Mockford and Mr. H. C. Mockford motored to Coramotion on Sunday to visit relatives there.

North Edgerton

The warming up of the baseball season started at the Edgerton bridge last Sunday when a mixed team practiced. Good form was shown, even G. Miles having his light track there with two gas barrels, no doubt to pep up the team.

The hum of the many tractors has somewhat abated now, seeing as seedling seems to be a thing of the past.

We wonder what has the season ahead in store for us; let's hope for a fair crop, fair price, to help each and everyone of us.

We notice Mr. R. Olson is having all his teeth extracted. The拔牙 will lose a good customer now, but all the same we hope he'll feel lots better.

The opossum uses its tail as a hand in clinging to boughs.

LOCAL NOTES

Our citizens are reminded that on Friday next to the Town Hall, a meeting will be held on the call of the Mayor to discuss the matter of siting by celebrating Wainwright's birthday as usual on Dominion Day, July 1st. YOU are required to be there and lend the affair at least your moral support. Let's ALL get behind the project, and stage a real celebration again.

Having completed his holiday period Mr. Thompson is again at his desk at the bank.

Mr. and Mrs. T. Lane, accompanied by Mr. Doug Wallace, motored down to Medicine Hat last week.

LOCAL NOTES

The annual golf tournament of the local club was in progress all day yesterday (Tuesday) and results will be published next week.

After the removal of his appendix at the hospital last week, Mr. Herb Wilson is now home again feeling greatly improved in health.

Preparing for the summer stay by the lakeside, several townfolk are visiting their cottages and clearing up these days.

Edmonton Exhibition Jubilee Flashes

Edmonton's Diamond Jubilee Exhibition will be held July 18-23.

Ever since 1879, when the Agricultural Society staged the first fair in Edmonton, this event has been held with annual regularity and Edmonton exhibition grounds, buildings and equipment are as modern as any in Canada.

\$35,000 is being spent to improve the appearance, safety and comfort of roads, fences, grounds and buildings; new benches provide added seating accommodation for grandstand patrons.

Every page of the 1938 Edmonton Exhibition prize list, now available from Hanna over the week end to free, on request, reminds the reader that this is Jubilee Year for Edmonton.

Mr. and Mrs. G. Siddall were here from Hanna over the week end to take in the golf tournament. They were guests of Mrs. G. Clark during their stay.

DAY AND NIGHT SERVICE

"Up in the Clouds"

by Beulah Earle

Then she walked him and laughed at his consternation.

"Great Scott, Nat," he cried in his husky voice. "I didn't know I was as bad as that. Let me get out of here before I wreck your whole rep."

She gave him coffee and insisted that he get into a cold bath, promising him breakfast when he had swept some of the cobwebs out of his brain.

Over the dainty slices of toast and the crisp bacon he was presently a complete picture of chagrin. His chin was rough and his clothes were crumpled. He insisted that he was not fit to associate with her.

"Weren't you trying to forget something last night, Jimmy?" Isn't that why you drank so much?"

He grinned sheepishly. "Yeah," he said, "and it took a lot."

"It's not a nice way to do, Jimmy. But I sometimes think it's better than remembering too much. Let's let it go at that."

"But how am I going to get out of here without making it look bad for you, Mont?"

The girl laughed. "Can you run, Jimmy?" she asked.

"Sure, why?"

"Well, I'm going out after a while and when I come back I'm going to find a prowler in my room. I'm going to make a terrible fuss and you'll have to beat it fast."

"Kid," he chuckled. "You're a genius. But you'd better wash up in these dishes before you let anybody in here."

They laughed and began clearing away the breakfast things.

Jimmy was very busy after that with mysterious affairs that seemed to involve his being much with Sunny Martin. He said nothing about all this to Natalie, even when they were working together on some angle of the story of the great flight.

Natalie herself was busy. She had access to the company files and each day there was some difficulty that had to be ironed out and that usually proved the basis for her story of that day.

The refueling stations were already set up. Each had a plane at hand and an auxiliary plane available. Each had a pilot in charge and an assistant pilot ready in case of emergency.

It had not proved necessary to forward pilots or planes. American pilots in each of the countries designated for refueling stations proved available for the work at hand. The last leg of the Eastern flight was to be under cover of darkness.

"I'll be meeting the boys pretty fast on this trip and I've got to get used to it," he told her when she asked about that feature of the preliminary start. That gave her another lead. "Days to be short for Wallace," the public would read that night.

In the midst of their conversation, Jimmy Hale drove up. He had pleaded delay and Natalie had taken a taxi to the hotel. He drove her aside and slipped something into her hand.

"Pretend this is your birthday, kid."

less and less preoccupied as the plans took shape. He was now thoroughly convinced that they would go through and that nothing but bad luck could stop the flight.

"In a thing like this," he told Natalie when she visited the hangar office a week before the flight, "you've got to count on luck. You do everything you can to keep luck out, but it creeps in spite of all. It's only the bad luck I'll have to fight. Everything else has been accounted for."

"You'll have to fight sleep, won't you, Mont?" she questioned.

"That will be easy. I wouldn't be able to sleep a dime's worth if I were staying home and somebody else were making the flight after all this preparation. I will be easier to stay awake when I know I've got the whole thing on my hands. Besides, it won't matter if I do off now and then, for the automatic controls will take care of the ship and there is an alarm system if anything goes wrong."

The thought of Mont Wallace sleeping at the controls of the valiant little ship as it hurtled through space sent a creepy thrill of fear into the girl's heart but she made a note of the plan and used it for her lead that night.

Two days later Natalie Wade drove to the airport with sinking heart. This was the day that Mont was to take off for the East. He was to re-

PICOBAC

PIPE TOBACCO
FOR A MILD, COOL SMOKE

he said. "I fixed this up for you so you can shoot pictures yourself when you get in a spot."

She saw that that he had given her a small and very fast camera of a type he had often described to her. She thanked him earnestly and then he jerked a thumb toward the night office.

"Old Jabe Marion wants to see you," he told her.

He did not follow after as she crossed to the opposite side of the hangar and he thought out the gray-haired MAC president.

"Hello, Natalie," he said, smiling up at her from his desk. "Do you know why I sent for you?"

"I haven't an idea in the world," the girl replied honestly.

"I've just arranged," he said proudly, "to have you make the trip to New York with Wallace. It's all fixed with the paper. There's nothing for you to do but pack a bag and go."

Natalie seized Jabe Marion's hand and wrung it excitedly.

"I—I've been dying to suggest it," she concluded her thanks, "but I did not have the nerve."

Jimmy Hale had known all about it. He had brought her the little camera because he knew. Mont Wallace grinned when he saw her coming toward him. Then he knew about it, too, she realized, and he was happy. Sunny Marion was nowhere to be seen. Perhaps she knew about the plan, and was not happy.

Jimmy carried her off to fetch her

A man lay there, sprawled on the hall carpet

fuel at Denver on the cross-continent flight in order to see that everything had been remembered. The last leg of the Eastern flight was to be under cover of darkness.

"I'll be meeting the boys pretty fast on this trip and I've got to get used to it," he told her when she asked about that feature of the preliminary start. That gave her another lead. "Days to be short for Wallace," the public would read that night.

In the midst of their conversation, Jimmy Hale drove up. He had pleaded delay and Natalie had taken a taxi to the hotel. He drove her aside and slipped something into her hand.

"Pretend this is your birthday, kid."

belongings.

He was as grief-stricken as though he had been going along on that first leg of the flight himself.

"It's a great chance for you, kid," he said. "And when you take pix, see that they mean something; don't just stand 'em up and shoot 'em."

He showed her how to operate the single shutter of the camera.

"Take a lot of shots," he advised her. "Some of them are bound to be no good but there's a hundred pictures in one load of that thing and some of them will turn out all right."

Natalie threw things into her bag. Jimmy watched.

"You didn't ever find that prowler

Hints for the Household

Conducted By Betty Barclay

MAN VOTES FOR PIE

Plea, with lemon pie as first choice, constitute the favorite dessert of masculine Canada. Oranges and lemons may be called Nature's own flavoring extracts for this dessert. In pie fillings, they combine readily with other customary ingredients — fruits, custards and creams.

Lemon Meringue Pie
(Makes 1 pie)

1 cup sugar
4 level tablespoons cornstarch
1/4 teaspoon salt
1 1/4 cups water (or milk)
2 egg yolks, beaten slightly

Stir dry ingredients, add water or milk and egg. Stir until dissolved. Cook in double boiler, stirring frequently, until thick (about 15 minutes). Add:

1-3 cup lemon juice
Grated rind 1 lemon.

Beat well. Cool and turn into either a baked or crumb crust pie shell (8-inch size). Cover with Sunbist Meringue.

Sunbist Meringue
(Covers 1 pie)

2 egg whites
1/4 cup sugar
1/4 teaspoon baking powder
1 teaspoon grated peel (orange or lemon, depending on pie).

Beat egg white until frothy, add sugar, baking powder and rind. Continue beating until stiff. Cover pie. Put in moderate oven (325 F.) for 15 minutes.

minutes to brown.

For a deeper meringue or larger pie use 3 egg whites and 6 tablespoons of sugar.

Orange Meringue Pie
(Makes 1 pie)

1 cup sugar
1-3 cup flour
1/4 teaspoon salt
Grated rind 1 orange
1 cup orange juice
3 tablespoons lemon juice
3 egg yolks, beaten light

Stir dry ingredients, add fruit juices and egg. Cook in double boiler, stirring until thickened (10-15 minutes). Add:

3 tablespoons butter.

Stir well. Cool and turn into either a baked or crumb crust pie shell. Cover with Sunbist Meringue, using 3 egg whites.

Tomatoes Stuffed With Veal

Wipe and remove thin slices from stem end of six medium-size tomatoes. Take out seeds and pulp, sprinkle inside of tomatoes with salt. Cook two tablespoons butter with one-half tablespoon finely-chopped onion for five minutes. Add one-half cup chopped cold veal, one-half cup stale bread crumbs, tomato pulp and salt and pepper to taste. Cook five minutes, then add one egg slightly beaten; cook one minute and fill tomatoes with this mixture. Place in buttered pan, sprinkle with buttered crumbly crumbs and bake for twenty minutes in a hot oven.

Holland Beef Soup

1 pint strong beef stock
2 tablespoons sugar
1 tablespoon grated onion
2 tablespoons vinegar
3 beets

Salt and pepper

Add sugar, vinegar, salt and pepper, and grated onion to the stock. Boil together about ten minutes. Boil beets in salted water. Peel and put through coarse strainer. About five minutes before serving add beets to stock, heat and serve. Too long cooking will spoil the bright red color.

Scalped Tomatoes

Drain one can tomatoes from some of their liquor. Season with salt, pepper, a few drops of onion juice, and 2 teaspoons sugar. Cover the bottom of a buttered baking dish with buttered bread crumbs, cover with tomatoes and sprinkle top thickly with buttered crumbs. Bake in hot oven until the crumbs are brown.

so few and far apart.

Natalie fought her terror through the night. It was not possible, it seemed to her, that this boy could direct the monstrous climb below in this frail plane. He would crash. He would die somewhere along that route that had been a thin, red line on the globe in the flight office.

Mont knew the Long Island flying field and the towns that lay about it. He knew the back of his hand. Everywhere he was hailed by friendly voices. He turned his ship over to the starting control station while Natalie telephoned the Eastern newspaper connections for which she was to do her story.

She had scribbled a diary of the flight as they flew East. Now she must find a quiet spot to turn out her lead. So overboard was she by her fears that she told Mont she didn't believe she could do her work.

He hailed a cab and hurried her off to a tiny hotel where he was known. Presently he sat beside her in a pleasant room overlooking a quiet street.

"Now, take your time," he said. "Nobody knows where you are. Nobody can bother you till you are ready for them. Do your stuff and then we'll tell them where to come for it."

He suggested that he leave her alone so that there wouldn't be any distractions, she cried out. "Oh, please, Mont. Please stay here. I'd die if you left me here alone." And so he sat beside her as she wrote.

Surprisingly, the story was finished in a short time. Messengers came rushing at Mont's call and bore it away.

She must get some sleep now, he told her. And when he had kissed her she threw herself on the wide, white bed. But fear struck then at her heart. Sleep would not come.

Continued next issue

RAINBOW ICE CREAM MOLD

No need to puzzle over just which "color" and flavor to make the Easter ice cream, when 3 colors and 3 flavors can be made from one recipe, in one ice cream freezer:

RAINBOW ICE CREAM MOLD
(Serves 8 to 10)

1 tablespoon gelatin
1 pint whipping cream
1 cup sugar
2 egg yolks (beaten)
1/4 teaspoon salt

Soak gelatin in 1/4 cup milk. Heat cream and remaining milk and add gelatin, stirring until dissolved. Add sugar, beaten egg yolks and salt. Blend carefully, remove from flame and cool. Pour mixture in freezing container of modern ice cream freezer and freeze, using 3 parts crushed ice and 1 part rock salt.

When frozen, remove cover, lift out dasher and divide ice cream into 3 bowls, placed in a shallow pan containing a mixture of 2 parts crushed ice and 1 part rock salt (to be used later in freezing the mold). Tint each portion the desired color and flavor accordingly, working quickly. Then place creams in freezing container, in 3 layers. Cover and place back in freezer from which water, ice and salt has been removed. Repack with 2 to 1 ice and salt mixture and let stand about 2 hours. Turn out on plate lined with a paper dolly and decorated with jonquils.

Think what this wonderful offer will mean in enjoyment throughout the whole year for yourself and your family. Magazines of your own choice and this newspaper, packed with stories, timely articles, helpful departments and colorful illustrations. Now is your chance.

Soul's Yearning

by A. B. CHAPIN

AT YOUR SERVICE

Continued from last week
but in the form of a faint current shot through the cells to detect short circuits, but shorts are so rare that to allow visitors to hear the tell-tale bell that signals a fault in construction, the fester keeps handy a strand of wire with which he deliberately crosses up the current.

Moving slowly along the assembly line the batteries advance to the section where they take in their supply of sulphuric acid. There is food for the imagination here, for the acid is probably from Copper Cliff, Ontario, whereas C.I.L. makes it from the fumes of sulphur gas escaping out of the mighty furnaces of the International Nickel Company's smelters. Indirectly, through the genius of chemistry, it is these fumes, washed and freed from dust by electric shock, combined with water and oxygen, with aid of heat and platinum, that are now finding their way into these batteries in the form of sulphuric acid. Trapped on their way to freedom in the skies, the fumes are now consigned to help generate the power that will be instantly available wherever these batteries are put into service. Power from waste, what a tale the author of the Arabian Nights could weave from this one episode alone in the making of the modern Aladdin's lamp!

But still, although all the ingredients are now together in their proper place and the box sealed with hot pitch, the battery is without its genie. Just a handful of lead and acid of no more use than a blank tin. Four or five days of subjugation to an electric current and the oxides on the plates will turn into lead peroxide and sponge lead. Then the stage will be set to do the owner's bidding. In the same matter-of-fact way that Aladdin's genie set a Sultan's spread for Aladdin's aging mother, your battery whips your motor into life, be it winter or summer.

Likewise, in a thousand and one places the pyrrhic genie in the dry cell battery will be performing a host of equally useful and valuable services. But whereas electricity, if not an intrinsic part of the make-up of the larger battery, is at least the doctor's slap which gives it life, the dry cell goes to work entirely without benefit of electricity. Except for the label every part of the slim cylinders assists in the production of current. The zinc cylinder itself, to which the label is attached, serves a dual purpose. It is the container for the various ingredients that make up the working cell and it is the negative pole. Its slow decomposition is a major factor in the production of current. Mounted in the centre of the cell is a slim carbon rod, the positive pole, which conducts the current to the outside circuit. Around this is packed the electrolyte paste, a mixture of sal-ammoniac, carbon, zinc chloride and manganese dioxide, the manganese dioxide being a catalyzing agent. The current is produced as soon as the circuit between the positive and negative poles is completed. What actually happens inside these compact little cylinders is a series of chemical reactions that are better left on the sidelines of the world and to the trained and efficient staff of chemists and engineers who carefully watch the manufacture of these batteries in the various plants. Roughly speaking though, the flow of current is produced by the dissolution of the zinc in the sal ammoniac solution. This chemical action liberates hydrogen which is a potential enemy to the life of the genie in dry cells and, until it was effectively neutralized, the huggers or every battery designer since Gassner produced the first modern type of cell in 1888.

Dry cell batteries, of which there are many types, perform between them useful services about equal in number and variety to those executed by the wet storage batteries and although this field of application has varied with alarming suddenness during the passing years, they are now in wider use than ever.

In the days when "listening in" kept addicts up until dawn in attempts to get one of the half-dozen radio stations then in existence, it was the dry battery that shared the work. Then came the radio operating on alternating current and the dry cell battery almost lost its job in the radio field, only to regain ultimately a stronger position than ever before, due to the phenomenally heavy sales of battery radios in rural areas remote from transmitted power, and, like most youngsters, the dry cell genie spent some of its youth singing bells; but when increasing use of electric power obsoleted the use of the battery for door bells he had to devote this energy elsewhere.

Perhaps most of the energy of the dry cell genie is expended in the flashlight field where, always ready in an emergency, it plays a strong hand in the prevention of accidents and the maintenance of law and order. Aviation and life in trailers and summer camps all owe a debt to the dry cell genie, while the slot machine games which have become so popular during the last few years are made more fascinating by the battery fed lights that flash the scores to the players. And even the weather forecast has been improved by the dry cell battery, for many of the slim cylinders of chemicals are attached to ascending meteorological balloons to generate our flash and the radios which transmit pulses which interested listeners translate into weather reports hours before the balloons descend to earth.

CANADIAN GARDEN SERVICE

Gordon Lindsay Smith

Bare Spots in Lawns
Disfiguring bare spots in an otherwise good looking lawn can be removed, though the job will require a little patience. Like a disease, the cause must be analysed before treatment can be attempted. There may be various reasons, such as short cuts by children, milkmen or dogs, sour or poor soil underneath, weeds, or starvation or shade.

If the grass is simply worn thin by traffic then the owner must decide if the path is going to be continued. If so, experts advise giving up the attempt to grow grass and paving the walk with flag stones, cinders, brick or similar quick drying material. If a path is not wanted then it may be necessary to protect by wire or a short hedge and make sure the practice of short-cutting is discontinued.

If soil is poor or sour underneath, it will be necessary to dig up, remove any gravel or stones, filling up with good earth and sowing thickly with a good quality of Canadian grass seed. For this purpose and for new lawns it is always best to get a good mixture of high quality packaged grass seed blended by expert seed men.

Sour soil can be corrected by an application of garden lime once or twice every few years. Moss is usually the sign of sour soil or too much shade. For partially shaded positions it is advisable to use a special shade seed mixture. Every big seed house puts up such. Of course close to the north side of a house or under trees or shrubbery it is difficult to grow good grass in any case and sometimes rather than make the attempt it is advisable to fill in with shrubbery or pave the area with flag stones or to plant wild flowers.

Where weeds are the cause of the grass dying the remedy will be digging out the offenders, adding rich soil and treating once or twice with a liberal application of commercial fertilizer or manure. Grass is a crop just like vegetables or flowers and it must have good soil.

To Hasten Growth

Where the gardener is anxious for without enthusiasm.—Emerson.

very early vegetables there are various short cuts at his or her command. Professional market gardeners who must have things early in order to secure top prices, start most vegetables and flowers in pots or shallow boxes in greenhouses. The amateur gets the same results either by purchasing these started plants or he grows them himself in a hot bed or sunny window.

For earliest results these plants are grown indoors in individual pots. In the case of tomatoes they may have their first fruits well advanced or be at least in bloom when ready for outdoors. Flowers like petunias, cosmos or marigolds will have the same result. Such well advanced things must be transplanted carefully with little disturbance to the roots. Sometimes the pot or box is broken off gently and the inside, roots and all, is planted without any disturbance at all. Immediately after planting the gardener waters liberally, adds an application of quick-acting commercial fertilizer, rich in nitrogen. To prevent burning roots or foliage this fertilizer is usually dissolved in water before applying.

MULCH PAPER

Another short cut for vegetables is the use of special mulch paper. This is heavy black material similar to tar paper only tougher. It is spread over the whole of the garden where early results are to be grown and is punched in it for the plants or seed.

The paper saves all cultivation and of course keeps the soil underneath much warmer than usual. Growth is amazingly rapid especially if soil is rich and well fertilized. The paper is held down with long wire staples, either home made or purchased. Only the very earliest crop is treated in this manner. Use of mulch paper often permits the growing of such tender things as corn and tomatoes in those northern districts of Canada where there are only three months or less of summer without frost.

ENTHUSIASM

Nothing great was ever achieved without enthusiasm.—Emerson.

BORROWING FOR PROFIT in the Dairy Industry

Profitable operations in the dairy business largely depend upon wise management. Competition is keen and good managers will borrow at the Bank, if necessary, to improve and maintain the quality of the herd, provide for scientific feeding and stabling, and keep essential equipment up-to-date and well-conditioned.

The Bank of Montreal is interested in such constructive efforts by dairymen. Our branch managers, familiar with conditions and requirements in this important industry, welcome applications for loans, to finance improvements. The Bank of Montreal is also interested in the organization and operation of Boys' and Girls' Calf and Swine Clubs, and welcomes the opportunity to discuss their requirements.

NEWS & VIEWS OF TOWN AND DISTRICT

Sympathies are expressed to Mr. and Mrs. Lloyd Myers at the death of their little two-year-old son, which occurred at the week end at the hospital. The wee sufferer was brought in to the hospital seriously ill, and passed away from acute nephritis.

The work at the Separate School auditorium is being rushed in order to have things ready for the concert which is dated for Friday evening next.

***Saturday next is the last day of the big Paint Sale at the Progress Lumber yard. Don't forget to obtain all you want now at the very low prices.

This week the local scale users getting a check-up. The inspector of weights and measures is paying the town his annual visit.

Among the new car owners this week are Ed Gehring and Tom Patterson, who are both enjoying more modern riding.

Only a little damage was done at the week end when one of the newer cars in town got somewhat out of hand and attempted to make a highway of the sidewalk!

***Of course, you don't have to use it right now! But it will pay you to get your paint requirements filled at the Progress Lumber yard before their big paint sale closes on Saturday next.

Mrs. A. H. Wylie was the fortunate holder of the lucky number in the draw for the W.I. quilt on Saturday last when the proceeds went to the cancer fund.

Mr. R. A. Snyder is making a splendid improvement in his home these days, in that he is having it fully modernised, with new bathroom, hot and cold running water, 'n' everything!

We learn that Mr. and Mrs. Hedley Abbott are moving shortly into one of the Joe Welch houses on Seventh avenue. The place is being remodelled for the new tenants.

***Numbers of people are taking advantage of the special paint sale at the Atlas yard to get their homes and buildings painted. Now is your opportunity.

We are pleased to note that the eye infection with which Mr. Jack Dalton, of Fabian, has been troubled is getting along better. He is a patient at the hospital.

Having spent the winter at the home of his relatives at T'orild, Mr. Harvey Taylor has now returned to again join the Park staff for the summer months.

Caused through falling from a bicycle when her clothing caught in the wheel, Miss Audrey Greer is suffering from an injury to her knee. She is progressing favorably at the hospital.

Many will be sorry to hear that Mr. Sam Purcell, of the Park staff, is under the doctor's care and is a patient at the Lamont hospital.

To mark the holiday for Empire Day, a number of citizens journeyed over to the Vermilion sports, while a number of picnics were arranged, too.

SYDENHAM

A shower was held on Thursday at the home of Mrs. A. Kinghorn in honor of Mrs. W. Fisher, a recent bride. A nice number of ladies were present and some useful gifts were presented during the afternoon.

Most of the wheat crop is nicely up in this district. Little Donnie McKay returned to his home on Saturday after spending the past week on the farm with his relatives.

ABSOLUTE PURITY!

That is our guarantee to you with every pint of Milk or Cream you purchase from us. Our herd of pure-bred Holsteins has been government-tested for your protection. Sanitary methods of handling and storing assure you pure and wholesome milk.

MILK and CREAM
at your table. Milk is the ideal food for all the family but you cannot take chances on its purity.

Have you heard

SPOTLIGHT PARADE
6.30 p.m. Wednesdays
Music by Melior—songs by
Louise Malmont, Phil Brito and
the Magic Mixed Chorus
with Rupert Caplan
Brought to you by
Magic Baking Powder
over

CJCA
Basic CBC Stations

Mr. Ed Goddard was an operative patient at the hospital during the last week, and is now doing nicely.

***Last year in Ontario 686 people were killed and 12,082 injured in motor car accidents; besides the thousands of cars damaged. In Alberta the losses from car accidents were greater per capita than in any other province. Drastic amendments to the Criminal Code will provide a curb to reckless drivers, especially if they are unable to pay for all damages. A modern car is a dangerous weapon, and no prudent person will drive one that is not fully insured. Joe Welch, auto and fire insurance.

Bishop A. Burgett, of Edmonton, will be here on Sunday next, when he will conduct a confirmation service in the evening at St. Thomas (Ang.) church. He will also be at 11 a.m. at 11 a.m. for the same purpose.

Quite a run for Spring painting is experienced these days an advantage being taken of the special paint sales in town. All the local brush artists are busy almost night and day.

Our town sure looks better and brighter following the visit of the sign painter and the addition of more advertising and business signs.

***Chasper Hotstuff and Mandy Strutt, the local dancing team, use Cross Corn and Bunton Salves. Remove warts, callouses, too. Sold by Wainwright Pharmacy and all drug centers.

The gang will soon be removing the new telephone poles and equipment which has arrived here for the replacement necessary on the lines to the east.

Mr. and Mrs. M. Suter, with Miss Jessie French, motored down from the city last week end to visit their father Mr. H. French.

Both the house and the contents will be under the hammer at the Daugherty home on Saturday next, and the whole family plan to sail for the Isle of Man in a couple of weeks.

The Legion Notice Board

We are in receipt of a circular letter from the Alberta Division of the Canadian Red Cross Society, stating that they have accepted the responsibility of administering the Imperial United Service Fund in the Dominion of Canada. As this fund is only \$25,000.00 for the whole of Canada, it is totally inadequate to even begin to do the things for which ex-Imperial service men might apply and it has, therefore, been decided to restrict the assistance to medical requirements only. They state:

(1) To provide hospitalization or transportation, or both, in acute illness.
(2) To provide appliances and medicines such as dentures, glasses and special medicines in cases of illness. It is felt, for example, that the supplying of dentures to these middle-aged men, where there is no possibility of securing them from other sources and where they are recommended by properly qualified physicians, is a remedial measure of importance to their good health.

The following papers must be attached to any application for assistance from this fund:

(a) A medical report certifying that whatever is required is necessary to improve the health of the applicant.
(b) Letters of recommendation from referees mentioned in the application form which must certify to overseas service from presentation of discharge.
(c) Minimum cost of work to be done by doctor or dentist as entered on application form, should be confirmed in writing by either of these practitioners.

Application forms may be procured from Col. T. Hamilton, Commissioner for the Alberta Division of the Red Cross, Customs Building, Calgary.

Mr. W. North arrived from Calgary last week to commence his duties as the new chorist at the Gold Standard refinery in town.

An advert. in this issue calls attention to the fact that the annual meeting of the ratepayers of the hospital district will be held on June 10th, at 2 p.m. in the Town Hall.

Mrs. Ada D'Albertson, with her son Ray and Mrs. D'Albertson, sr., (Grandy) drove up from Chasvin last Thursday to visit with friends in town. Mr. and Mrs. F. Perry were with them, too.

Mr. Henry Ward left at the week-end for a visit to Vancouver.

The DIAL REVIEW

by Walter Dales

MANUSCRIPTS WANTED
From time to time this column has attempted to answer queries on how to write radio plays. Now it's a pleasure to offer something far more welcome to ambitious scripters—a market for their work.

The inauguration of one-act plays as a special feature of "Spotlight Parade", variety programme heard over a combined CBC-CJCA network Wednesday, 6.30 p.m., has led to the demand for original manuscripts. Rupert Caplan, producer of the programme, is particularly anxious to obtain original sketches by Canadian authors. These should be submitted to him care of "Spotlight Parade", Station CRM, Montreal, and should be timed to last exactly eight minutes.

For the second successive year, Radio Theatre, CJCA Mondays, 6 p.m. has been voted the best dramatic program. This honor has been conferred upon it by the Women's National Radio Committee. Cecil B. DeMille, director of the show, declares much of the credit should go to his associates—Lou Silvers, musical director, his scriptors and collaborators.

Edward G. Robinson, in the role of city editor, will be the central character in another "Big Town" dramatization from CJCA next Tuesday at 8.30 p.m. Aiding him in his attempt to expose one of the rackets which flourish in "Big Town" will be his society editor, played by Claire Trevor. A cast of veteran performers will appear in support.

"The Red Ledger", radio serial produced and directed by Frank L. Packard, famous Canadian author of adventure stories, is drawing unprecedented fan mail from Canadian listeners who hear the thriller every Wednesday night at 6 o'clock over a CBC-CJCA network. "The Red Ledger" programme can be picked up at any time, each episode being a complete story in itself.

RADIO QUESTION BOX
Q.—Will you tell me what is wrong with this play I am enclosing? Two stations have turned it down.—B.T.
A.—I enjoyed reading your play but can see why it was not found available. Characters say too much in each speech. You've written a group of monologues instead of fast-moving conversation. People don't naturally hold the floor long. Listen to the ladies at the next sewing bee you attend. Better still, try to say thirty words without someone breaking in on you!

Q.—Is Kenny Baker a married man?—S.V.
A.—Yes. Kenny married his high school sweetheart. She's a non-professional by the way.

Q.—Why doesn't Charlie McCarthy have his friend and partner Skinny Dugan on the air with him?—L.T.
A.—I'd like to turn that question over to Bergen. However, it might help to tell you that Skinny is a Cocker Spaniel—the family pup.
